Chemical and Fertilizer Plant Operations Manager

Dunkerton Co-op is looking to hire a valuable team member to manage our computerized agronomy blend plant operations. This person will be primarily responsible for the safe and efficient operations of our chemical and liquid fertilizer mix plant.

Duties will include:

- Blending fertilizer and chemicals according to label and work order instructions
- Load and direct tender trucks to proper application equipment
- Coordinate with sales staff and applicators on daily activity
- Receive, manage and store inventory to acceptable company standards
- Assist with and loadout customers
- Ensure equipment is operating properly and is clean and maintained
- Learn the operations of our computerized dry fertilizer plant and unmanned liquid plant.

Applicant must be able to lift a minimum of 50 pounds, climb ladders and stairs, not be afraid of heights and be able to work longer hours during season. Have some computer knowledge and have or be willing to obtain a Class B or A CDL and Chemical Handlers Permit.

Dunkerton Co-op offers a competitive wage along with the following:

Defined Benefits Retirement (Pension) Plan in addition to a 401K plan with a company match up to 3%

Health (Two different types of plans are offered) along with Dental & Vision Insurance

Clothing Allowance

Profit Sharing

Personal Time Off along with time off for 6 major holidays

Short and Long Term Disability
